## DETAILED ACTION

### *Priority*

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-12 and 14-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Lin '122. Lin '122 discloses a headlight with a reflector housing (20) and a front glass (10) which together enclose a headlight inner space, and with a reference surface for defining the position of a lamp (32, 52) having a lamp body (72 and 35) and a lamp base (41 and 81) inside the headlight, wherein the headlight is constructed such that the lamp (41 and 81) **can be (intended use language)** inserted such that the lamp base (72 and 35) is positioned **in front (as broadly claimed “front” can be in any direction of the lamp body (8, 31), when viewed against the radiation direction of the headlight.)**

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Jacobson et al '921 and Lin '991 discloses lighting assemblies which are similar to applicant's invention.
